1 Boxed Parts

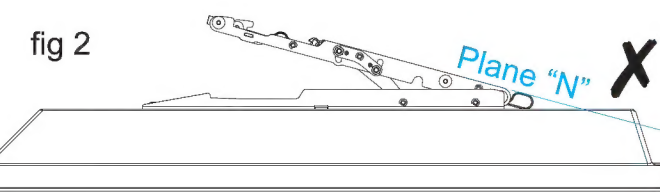

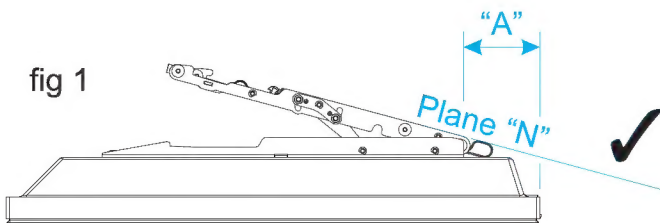

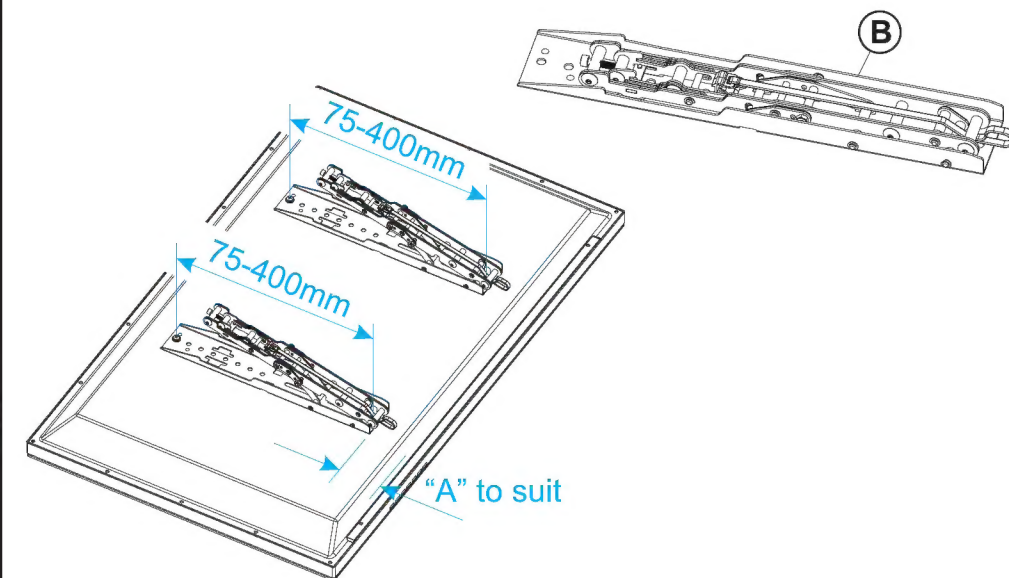

2 Tools Required

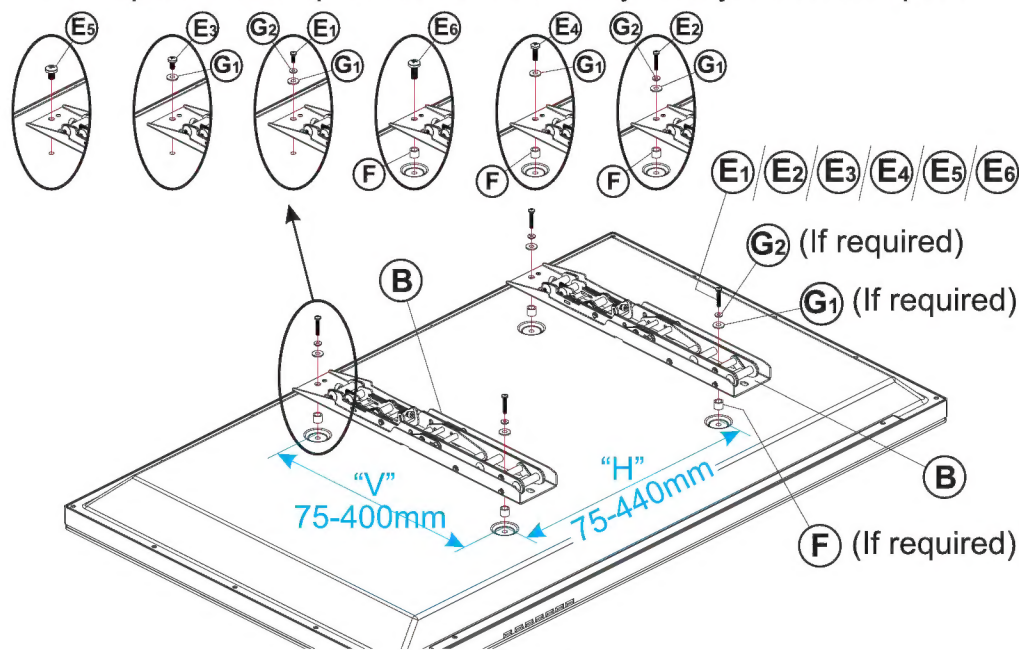

3 Fit Screen Brackets

When fitting the screen brackets, it is important to fit them in a position that ensures tilt of the screen is possible after installation.

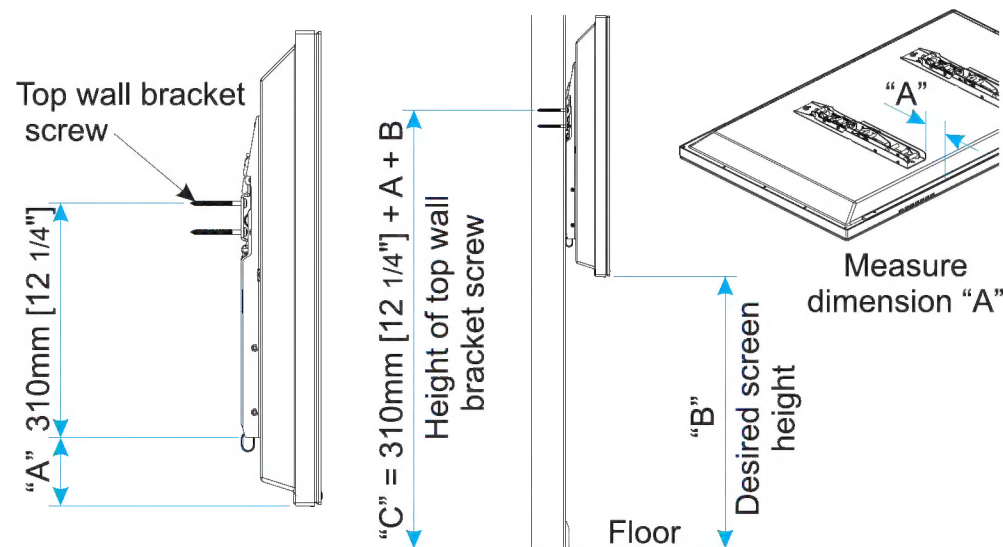

Fig 1 shows the screen brackets fitted correctly to a small TV. Note that the plane "N" does not clash with the TV. Fig 2 shows the screen brackets incorrectly fitted to the screen, where plane "N" does clash with the TV.

Use the screws E1-E6 that suit your TV
Use spacers F to space the bracket away from your TV if required

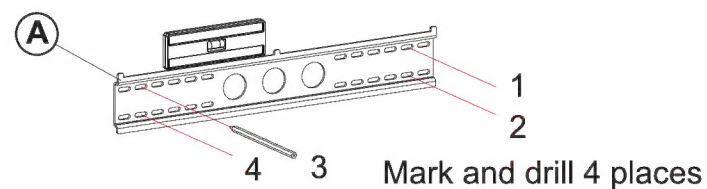

4 Determine Wall Bracket Height

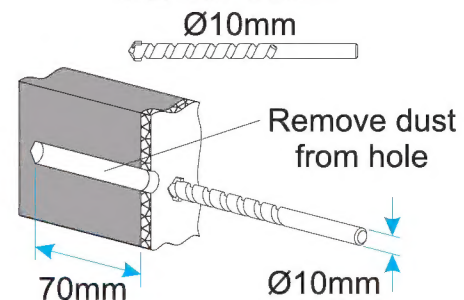

5 Fit Bracket To Wall

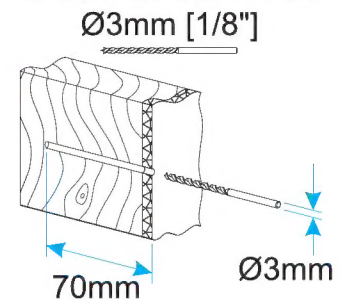

Use the bracket as a template
Hold the bracket level while marking the wall

Solid Wall

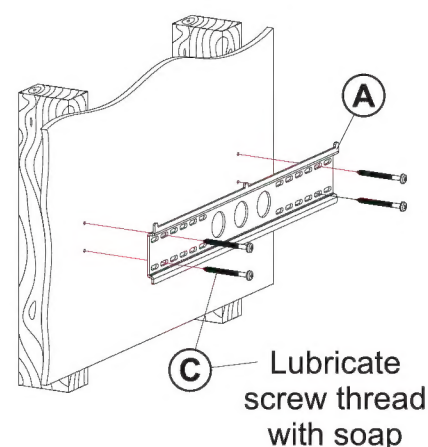

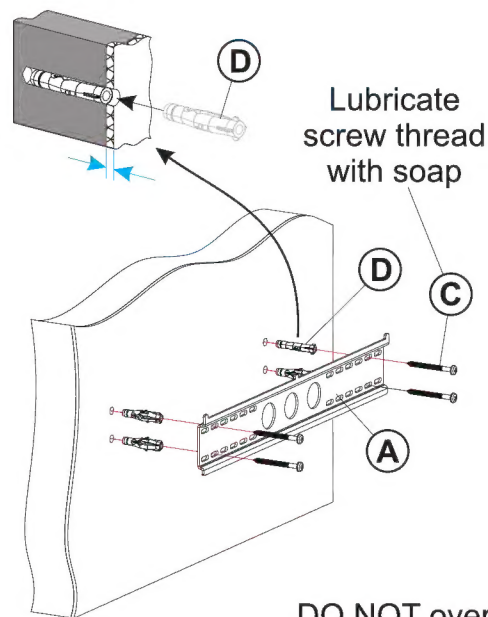

Wood Stud Wall

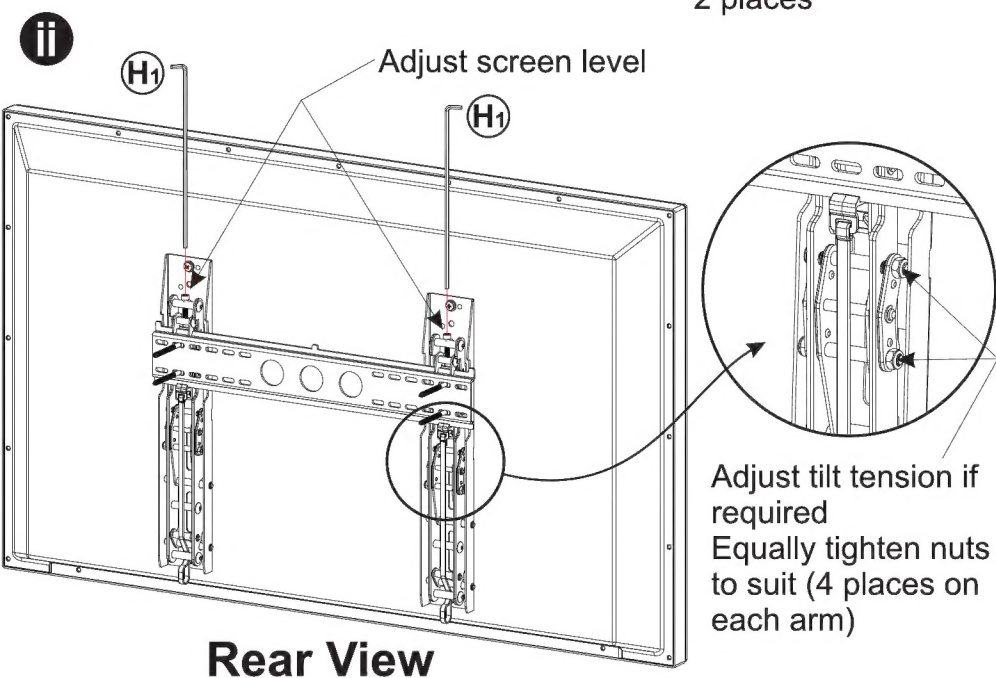

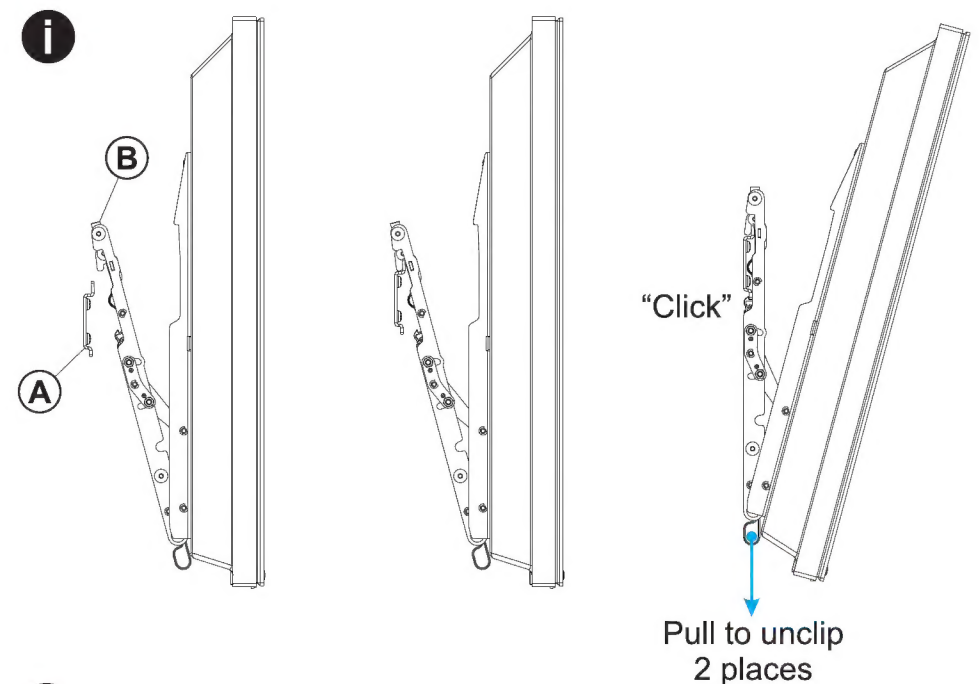

IMPORTANT!

Ensure all four fixings are on the centre of the wood stud

DO NOT over tighten screws
Tighten screws by hand only

6 Assemble

Rear View
